**Happy. Healthy. Smiles. Everyday.**

**Dental Health**

Crooked Lane Solutions is a range of veterinary formulated natural products to help improve pet health and wellbeing.

Plexident® Dental Chews are a specialised formulated dental chew with the inclusion of *Bacillus subtilis* – an oral probiotic to reduce oral bacteria, acid buff – to help neutralise the acid production, pomegranate, grapeseed & seaweed extract – for their polyphenols, tannins, anthocyanidins and anti-inflammatory properties.

Used daily, the unique combination of Plexident Dental Chew's abrasive texture and all-natural active ingredients, will help to keep teeth clean, freshen breath and reduce plaque and tartar build up in dogs.

Plexident® Dental Chews are free from artificial flavours and colours.

**Directions For Use:**

1 chew daily for optimal results

Not suitable for dogs under 2kg or dogs less than 6months of age.

Fresh clean drinking water should always be available.

Always supervise when feeding to ensure the dental chew is adequately chewed prior to swallowing.
