Behavioural Health

Crooked Lane Solutions Naturally Calm offers owners an advanced formulated supplement, developed to help reduce restlessness and excitability in dogs.

Containing high levels of L-tryptophan, a select probiotic, B-Vitamins, magnesium, and herbal extracts, Naturally Calm provides a fast acting, easy dose chew that may help in times of unease, such as storms, travelling, fireworks, kennelling, training.

What are the signs of Anxiety in Dogs?

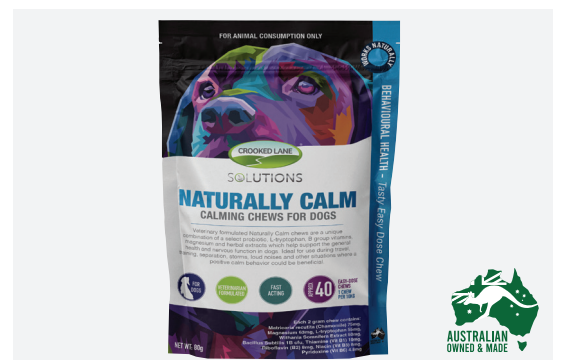

- Panting
- Barking or growling
- Shaking
- Yawning
- Pacing
- Restlessness
- Cowering
- Tail tucked
- Hiding
- Excessive grooming

Developed to help calm and settle dogs naturally, these soothing chews contain a select probiotic (probiotic supplements have been a promising area of research that focuses on the microbiota-gut-brain axis), L-tryptophan (tryptophan is an amino acid that is important for the production of serotonin in the body), *Withania Somnifera* (commonly known as Ashwagandha, an important medicinal plant), *Matricaria recutita*- Chamomile (an important nervine, digestive and detoxification herb), Magnesium (involved in maintenance of nervous function) and B group vitamins (have a role in normal general metabolism & nervous system function).

Directions for use:

1 Chew Per 5kg	Dose
1-10kg bodyweight	1 Chew
11-20kg bodyweight	2 Chews
21-30kg bodyweight	3 Chews

*Give 20-60 minutes before needed. (eg. Vet visits, travel, separation anxiety, thunderstorms, fireworks etc.)
